

## SKID STEER HYDRAULIC TRENCHER

SUITABLE FOR WORKING IN SOIL TO DIG STRAIGHT TRENCHES FOR LAYING WATER PIPE, ELECTRICAL CABLES, IRRIGATION CANALS, AND GAS PIPE

- Utilizing a four foot long reach boom to allow for deeper trenching
- A 12 inch diameter removeable auger is mounted to the side, allowing for material to be discharged sideways so as to limit the amount of soil falling back into the freshly dug trench
- Easy chain tension adjustment can be done with simple hand tools
- Eaton direct drive hydraulic motor mounted on load absorbing heavy duty hub assembly for maximum digging efficiency
- 50/50 carbide tipped tooth and cup chain configuration
- Manual side shift for trenching close to obstacles
- Removeable crumber bar
- Quick attach mounting plate

## STANDARD SKID STEER HYDRAULIC TRENCHER

SKID STEER HYDRAULIC TRENCHER	
Model	4' x 8" Skid Steer Hydraulic Trencher
Part Number	1513430
Length	78.70 inches
Width	47.25 inches
Height	33.46 inches
Weight	750.00 pounds
Maximum Operating Pressure	3000 PSI
Maximum Rated Flow	25 GPM
Maximum Operating Speed	225 RPM
Trenching Depth @ 60°	48.00 inches

OPTIONAL FEATURES	
Model	4' x 8" Skid Steer Hydraulic Trencher
Replaceable 50/50 Carbide - Cup Tooth Chain	✓
